

THE MONEY MARKET.

Table with columns: Name, Opening, High, Low, Closing, Shares Sold. Lists various stocks like Am. Bond, Am. Sugar, etc.

movement was started, and when this was continued to the end. The St. Paul road came in with a report of its earnings for the third week in June showing a decline of only \$3,281, which was less than was expected by those who did not know that the earnings for the week of last week were mentioned as being specially favorable, and at the price of St. Paul the day, however, was the renewed activity and sharp recovery in price of St. Paul and Manhattan. The record advanced stock amounted to 6,200 shares at prices ranging from 98 1/2 to 101. After the extreme price had been a rarer was current that the Chicago, Burlington and Quincy had obtained control of the Manitoba Railroad. What, if any, are the grounds of such a report we are unable to say at this writing, but one thing is certain—the truth of the report is inconsistent with the contemporaneous advances that were made of 1/4 per cent for Northernwestern, 1/8 per cent for St. Paul, 1/4 per cent preferred, 2 per cent for Burlington and 1 1/2 per cent for Rock Island.

Government bonds were dull, with a firmer tone, and the market closed in a manufactured upsurge, with which the majority of the brokers had nothing to do except as lookers-on.

State bonds were neglected. Tennessee city bank sold at 5 1/2. There were no transactions in public stock.
